

Environmental policy

Luxinar Ltd is a manufacturer of lasers and laser systems. It recognises that all businesses impact on our environment in a variety of ways and as a responsible business is committed to the continual improvement of its environmental performance in relation to its products and operations.

We have identified the following key environmental impacts associated with the manufacturing process of laser systems:

- Production and disposal of product
- Supplier issues
- Waste disposal
- Consumption of energy, water and other resources
- Packaging materials

The company is committed to reducing these and other impacts and to the continual improvement of our environmental performance.

We are committed to working with our staff, customers, suppliers, investors, contractors, regulatory bodies and neighbours to achieve the following objectives:

- Meet, and where possible, exceed all environmental regulations relevant to our organisation and its activities.
- Increase cost-effectiveness by reducing our consumption of energy and raw materials
- Reduce waste, pollution and emissions
- Systematically assess all aspects of our company
- Set targets for measurable annual improvements
- Make our progress available for independent assessment

It is the responsibility of all employees, visitors and contractors to fully support this policy through active participation and co-operation.

This environmental policy will be displayed at all times and is openly available to all members of the public via our website: www.luxinar.com

The introduction and implementation of this policy is a commitment of Luxinar Ltd management and a shared responsibility with our employees.

The policy will be reviewed annually as part of the organisations overall environment management plan.

M. Porbadnik

Managing Director
